LADIVA APP

Installation Guide

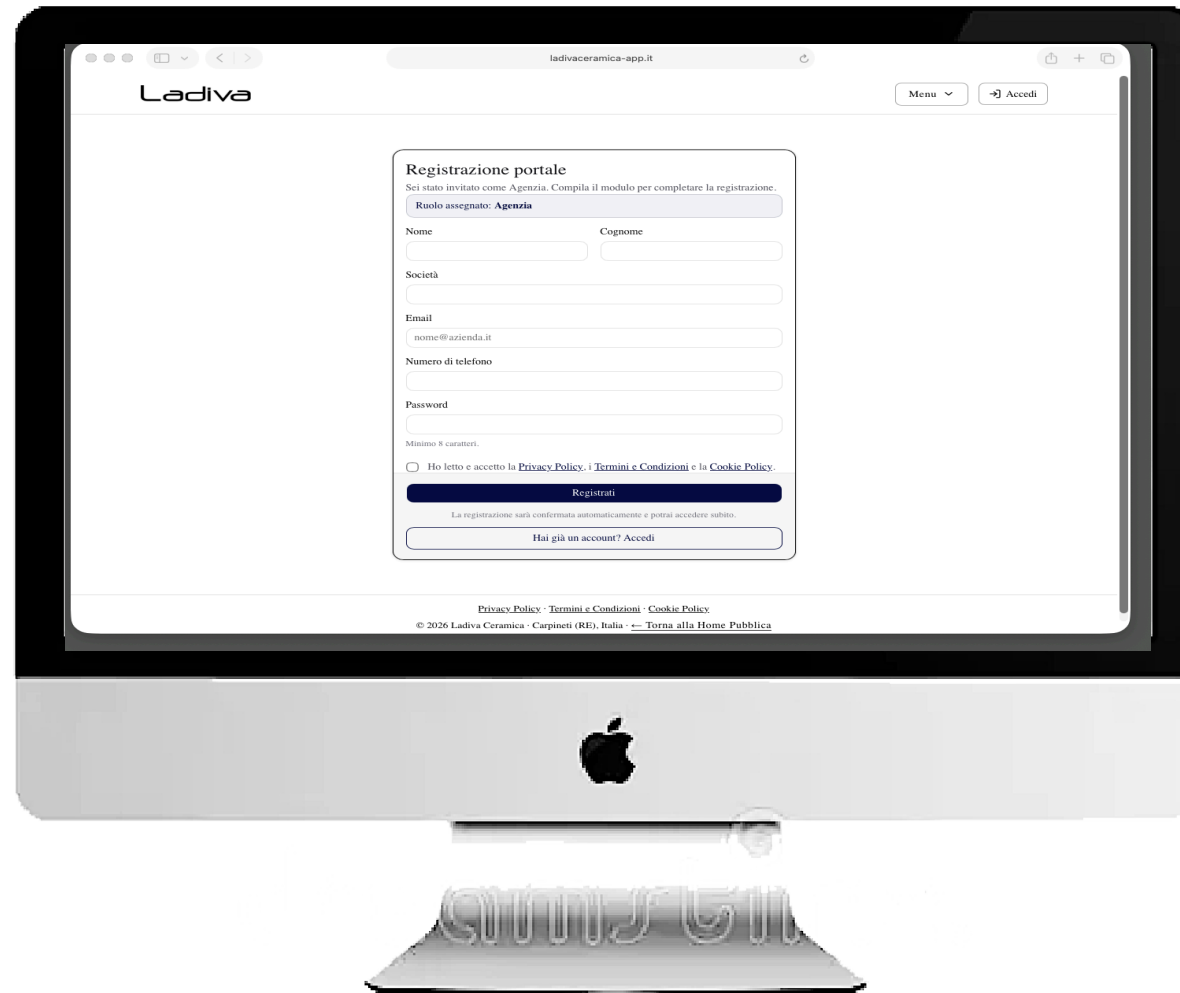

AGENCY

FOR PC and Android

To use the app on PC, Tablet or Android: Receive the access link. Copy it (press and hold on the link Copy). Open it in your device's browser (Chrome is the most recommended). It works both on computer and on Android phone or tablet.

FOR Mac and IOS

To use the app on Mac, iPad or iPhone:
Receive the link. Copy it. Open it must with Safari (on Mac, iPad or iPhone).
Safari is mandatory for the app to work correctly on Apple devices.

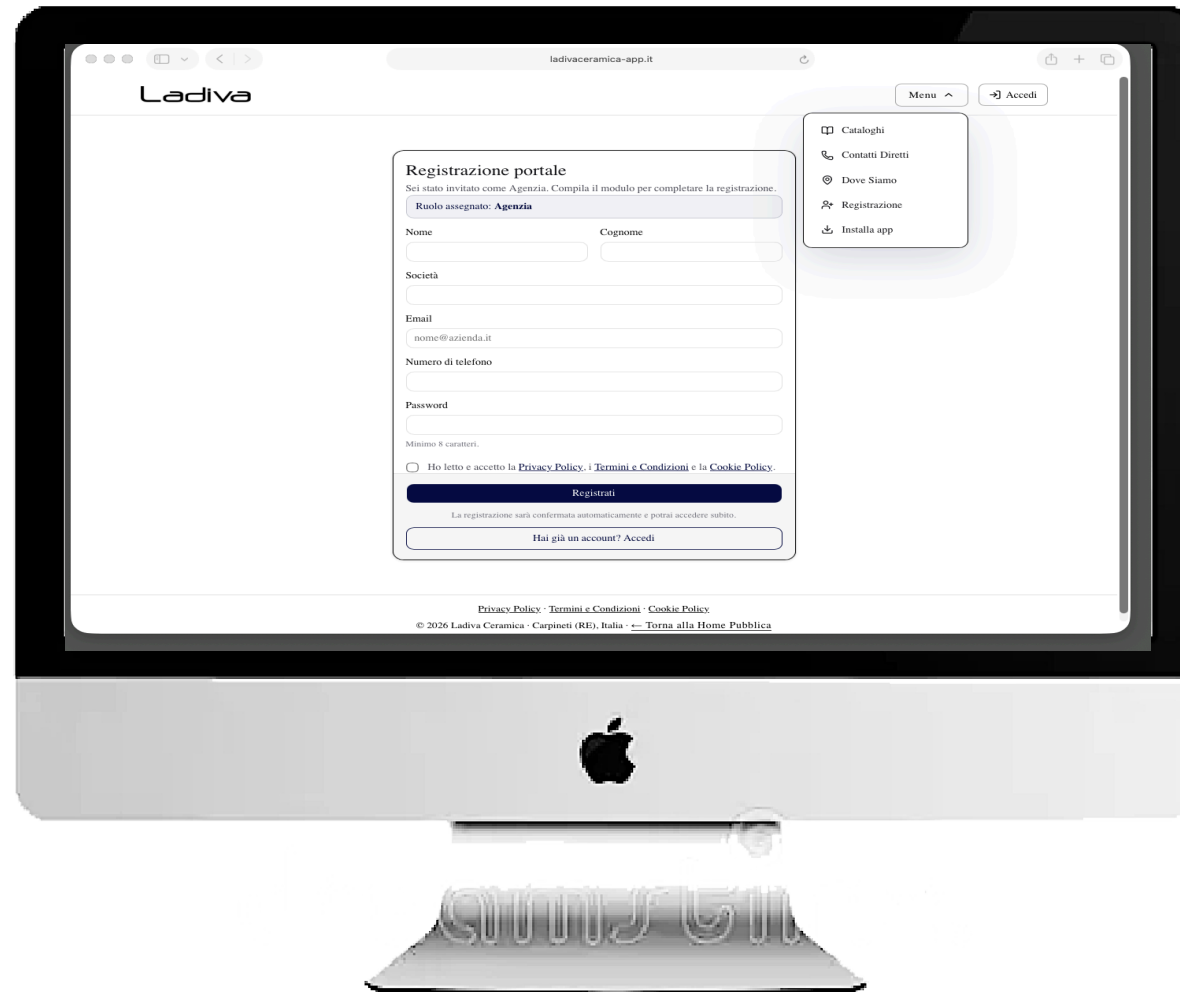

Register on our portal. The invitation you received is for your AGENCY. Enter: Company name and the agency's email (do not enter your personal details — you will use those later) Agency's phone number (if you have it) Create your own access password Then accept the PRIVACY policy and click REGISTER. If you are an AGENT and not an agency (you have no one else besides yourself), enter your own details.

Install the app (APPLIES TO ALL DEVICE)

After registering and logging in:

In the top right of the screen, click the menu icon

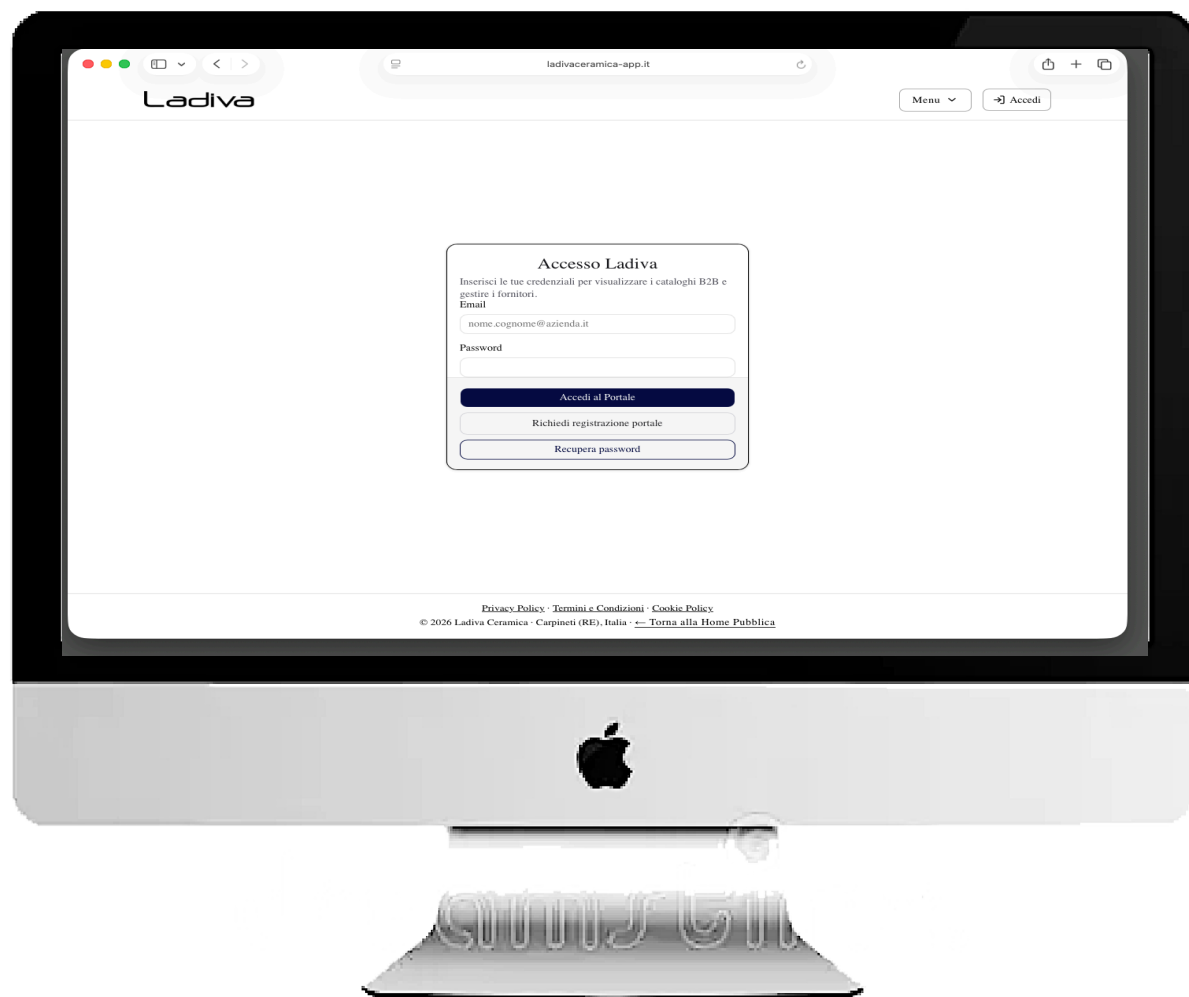

Select "INSTALL THE APP"

Congratulations, your APP has been downloaded and is ready for your AGENCY.

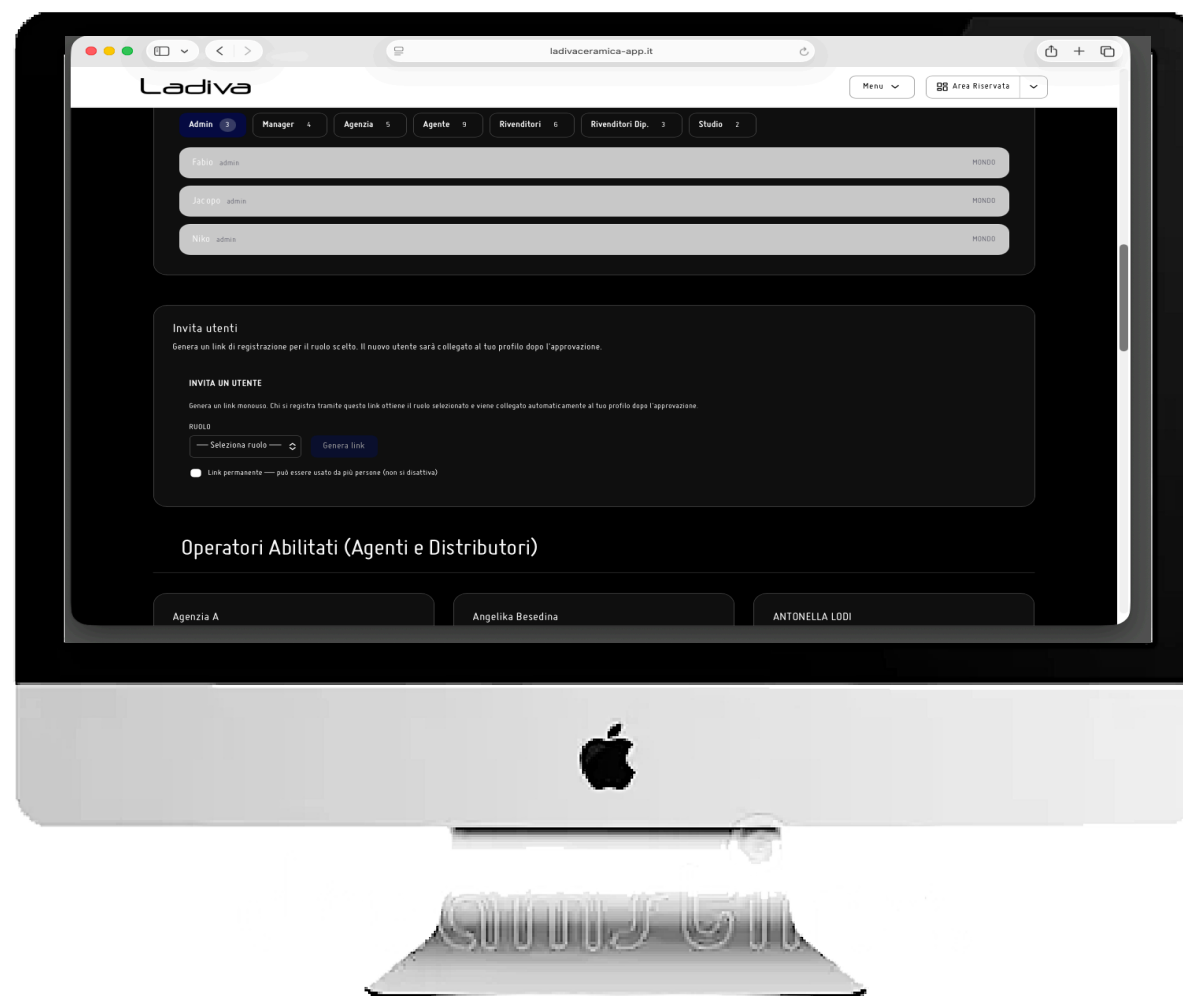

APPLIES TO ALL DEVICE

If you haven't entered the app you just installed yet: Click on "LOGIN" (it is located next to the Menu button). In the screen that opens, enter the email and password you used to create the agency.
Click on LOGIN TO THE PORTAL.

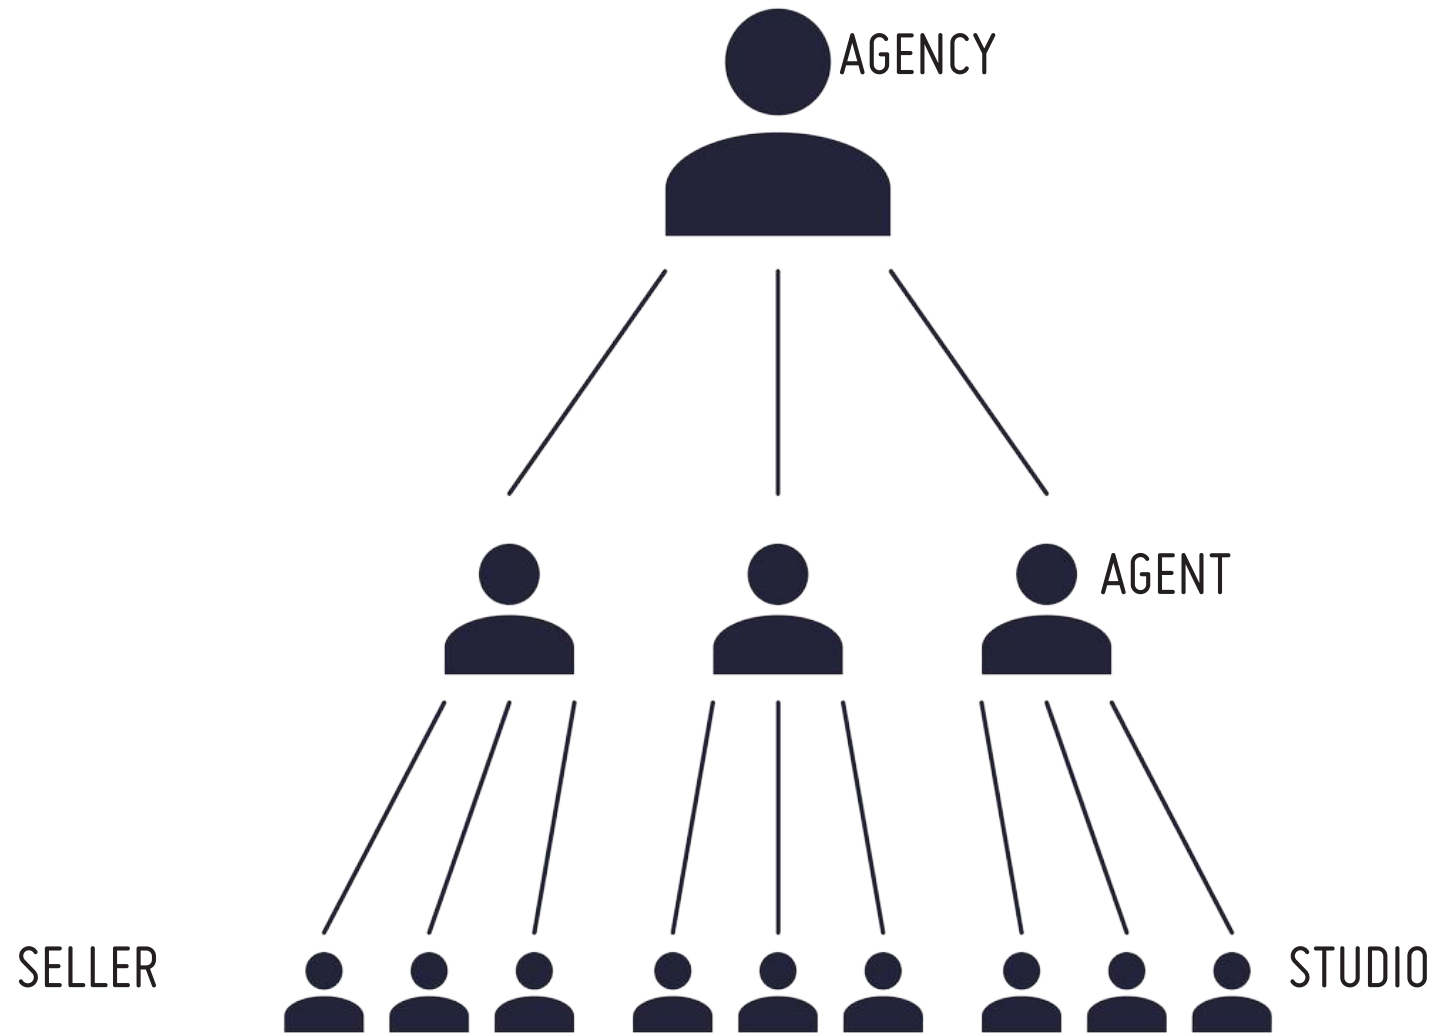

Once you are inside the APP, you will see: TECHNICAL CATALOGS divided by families and series, or the PHOTOGRAPHIC CATALOGS divided by families (bottom right). In your DASHBOARD, you can download the 2D and 3D files, the PRICE LIST, MERCHANDISING and POWERPOINT presentations to present LADIVA. Go to the RESERVED AREA, click on USER MANAGEMENT, scroll down until you see the text: INVITE USERS. Assign the ROLE as AGENT to complete your AGENCY. Click GENERATE THE LINK. Copy the generated link and send it to the agent of the agency. Create as many links as the number of agents you have. Let's now grow your AGENCY: Go to the RESERVED AREA, click on USER MANAGEMENT, scroll down until you see the text: INVITE USERS. Assign the ROLE, invite your RESELLERS (they will be able to view: 2D and 3D files, PRICE LIST) or the STUDIOS (they will be able to view: 2D and 3D files). Click GENERATE THE LINK. Copy the generated link and send it to the RESELLER or to the STUDIO, according to the role you previously selected.

(Attention: if you have multiple Studios, tick the flag before clicking GENERATE THE LINK. This process is usually used for a dedicated mailing list, because a single link can be used unlimited times.)

The entire network you create is visible only to you and to your colleagues in the AGENCY. You can view it in the RESERVED AREA, under USER MANAGEMENT, divided by resellers and studios.
