

Ladiva

AGENT (AGENCY)

LADIVA APP

Installation Guide

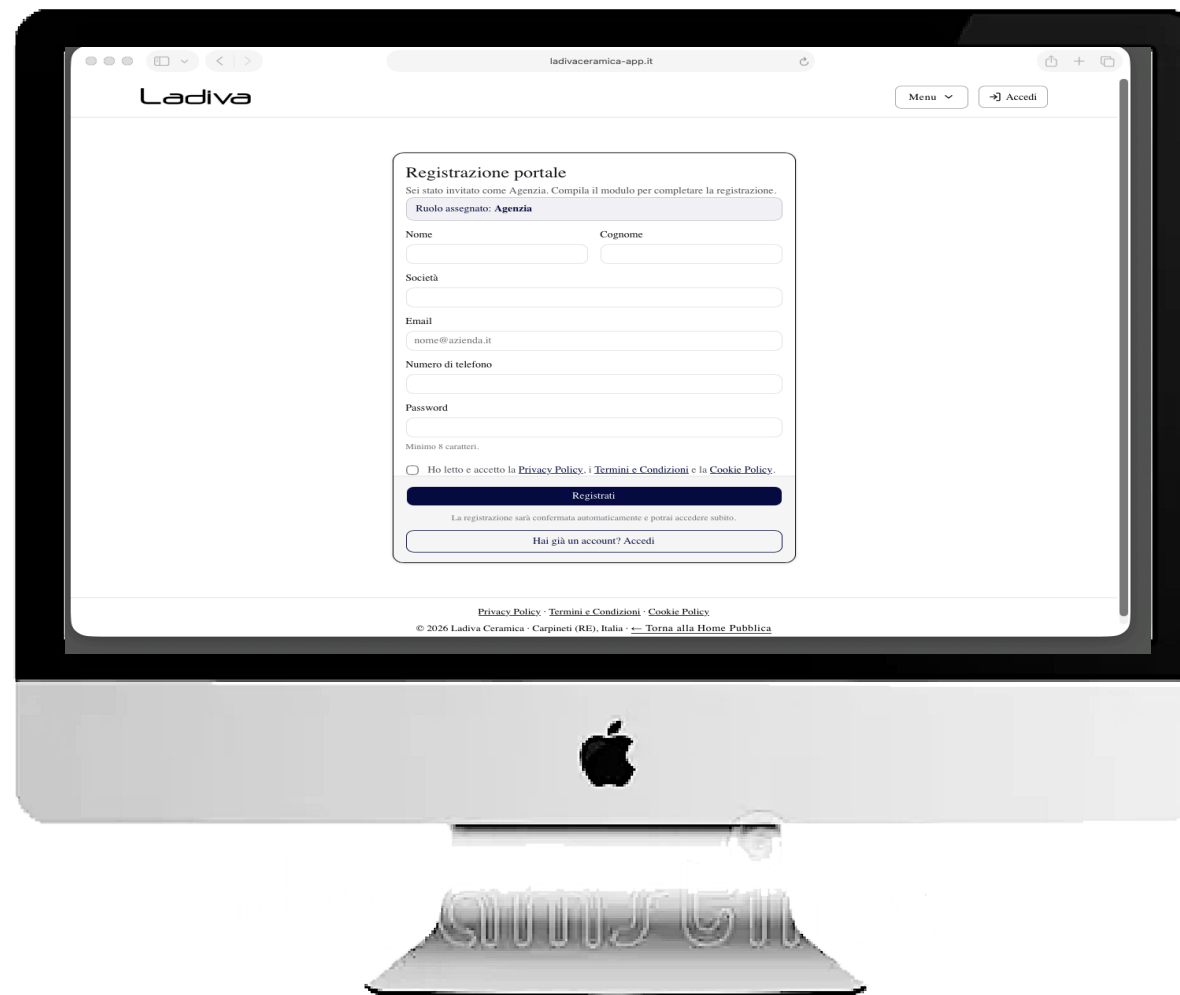

AGENT (AGENCY)

FOR PC and Android

To use the app on PC, Tablet or Android: Receive the access link. Copy it (press and hold on the link Copy). Open it in your device's browser (Chrome is the most recommended). It works both on computer and on Android phone or tablet.

FOR Mac and IOS

To use the app on Mac, iPad or iPhone:
Receive the link. Copy it. Open it must with Safari (on Mac, iPad or iPhone).
Safari is mandatory for the app to work correctly on Apple devices.

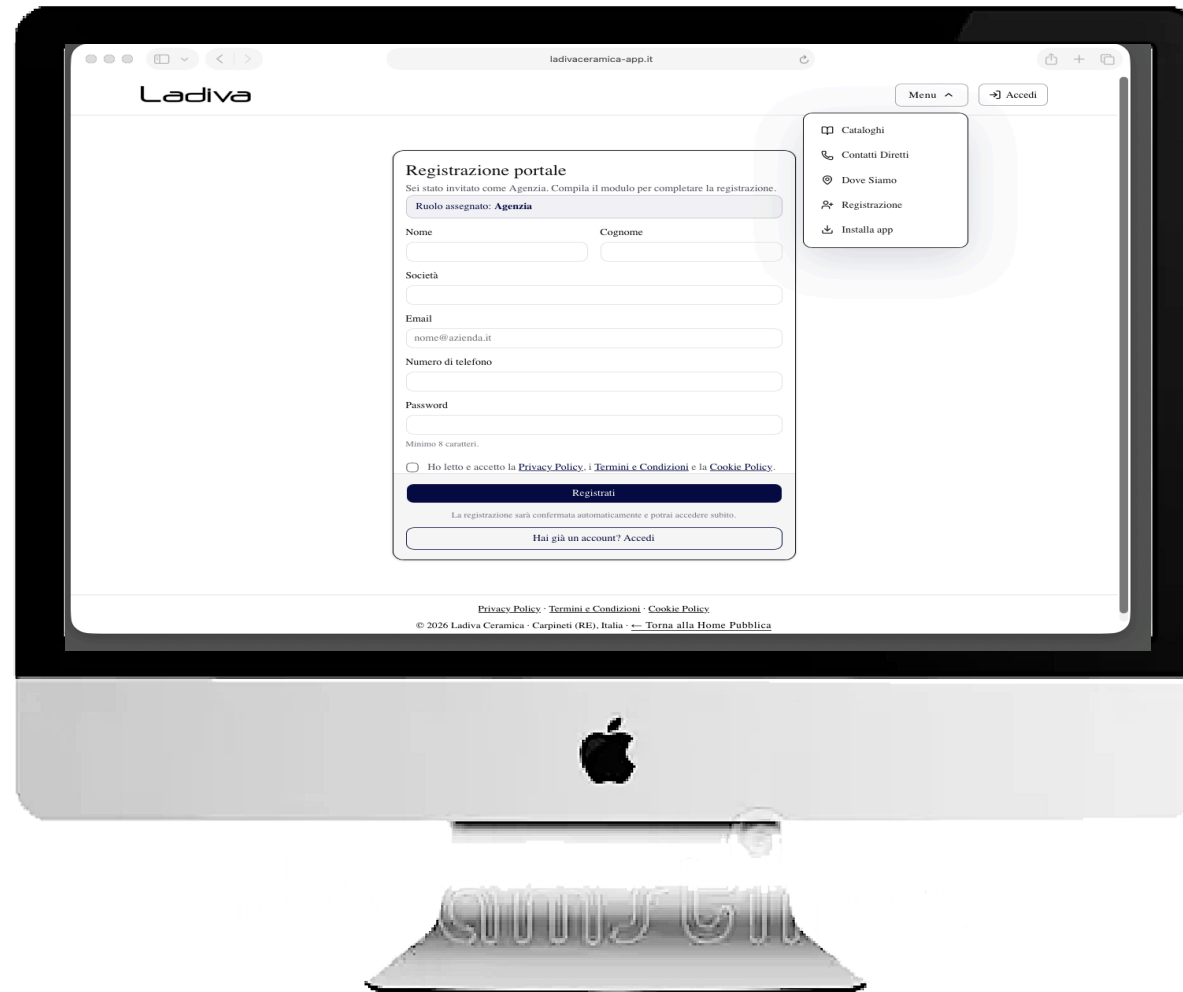

Register for our LADIVA WEB APP. The invitation you received is for your representation agency. Enter your details, email, mobile number and create your access password. Accept the PRIVACY POLICY and REGISTER.details.

Install the app (APPLIES TO ALL DEVICE)

After registering and logging in:

In the top right of the screen, click the menu icon

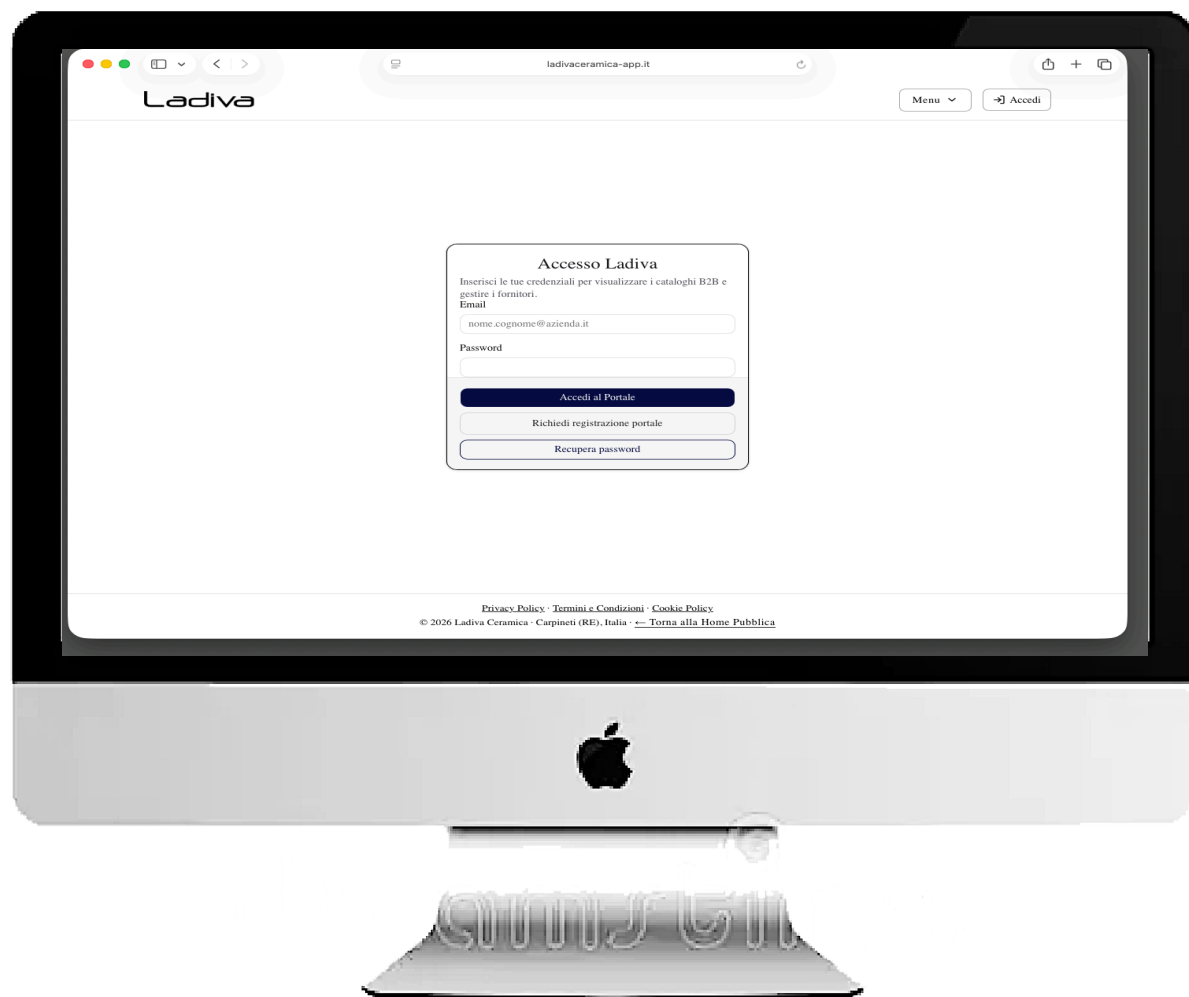

Select "INSTALL THE APP"

Congratulations, your APP has been downloaded and is ready for your AGENCY. Congratulations, you have entered the LADIVA WEB APP.

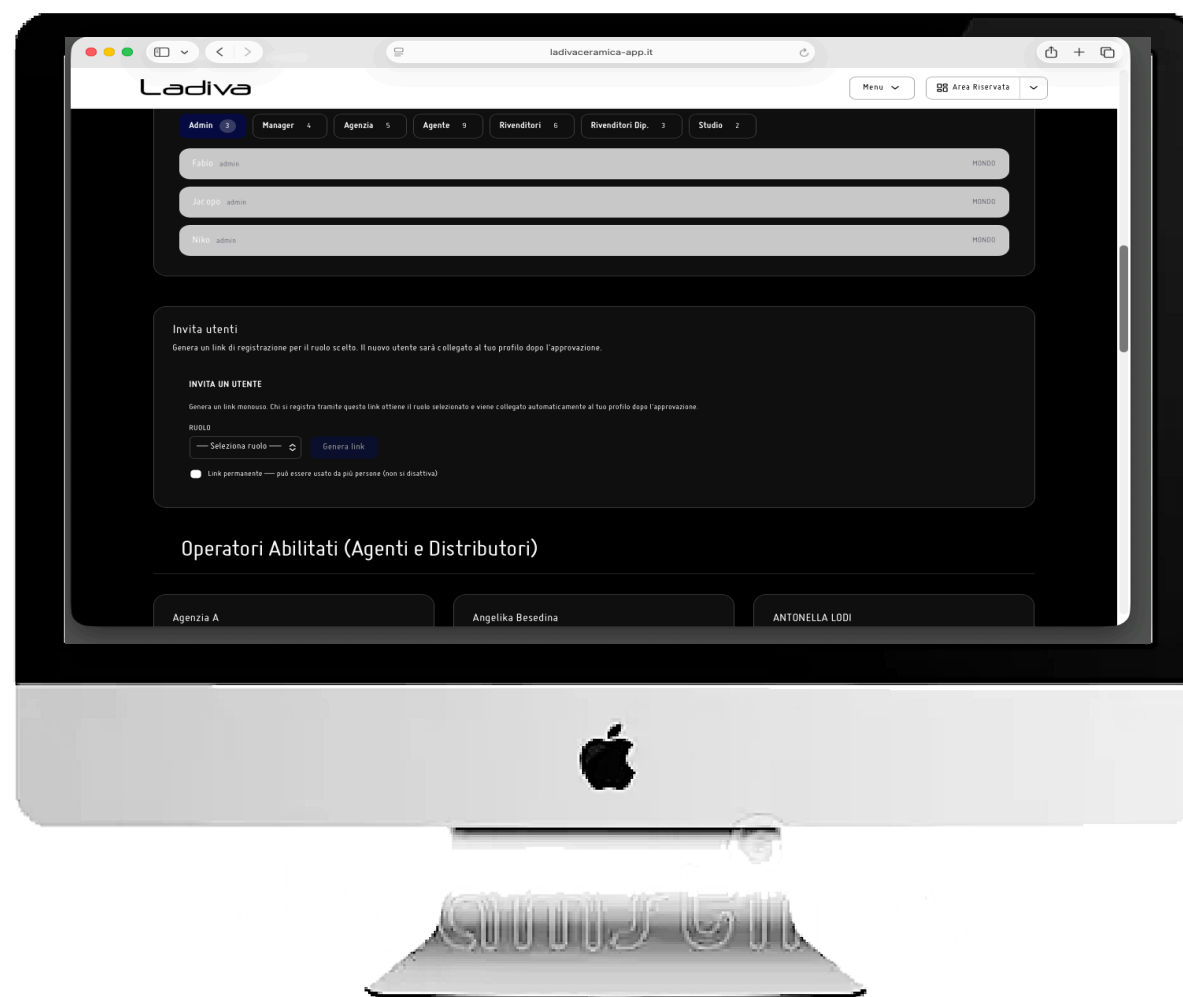

APPLIES TO ALL DEVICE

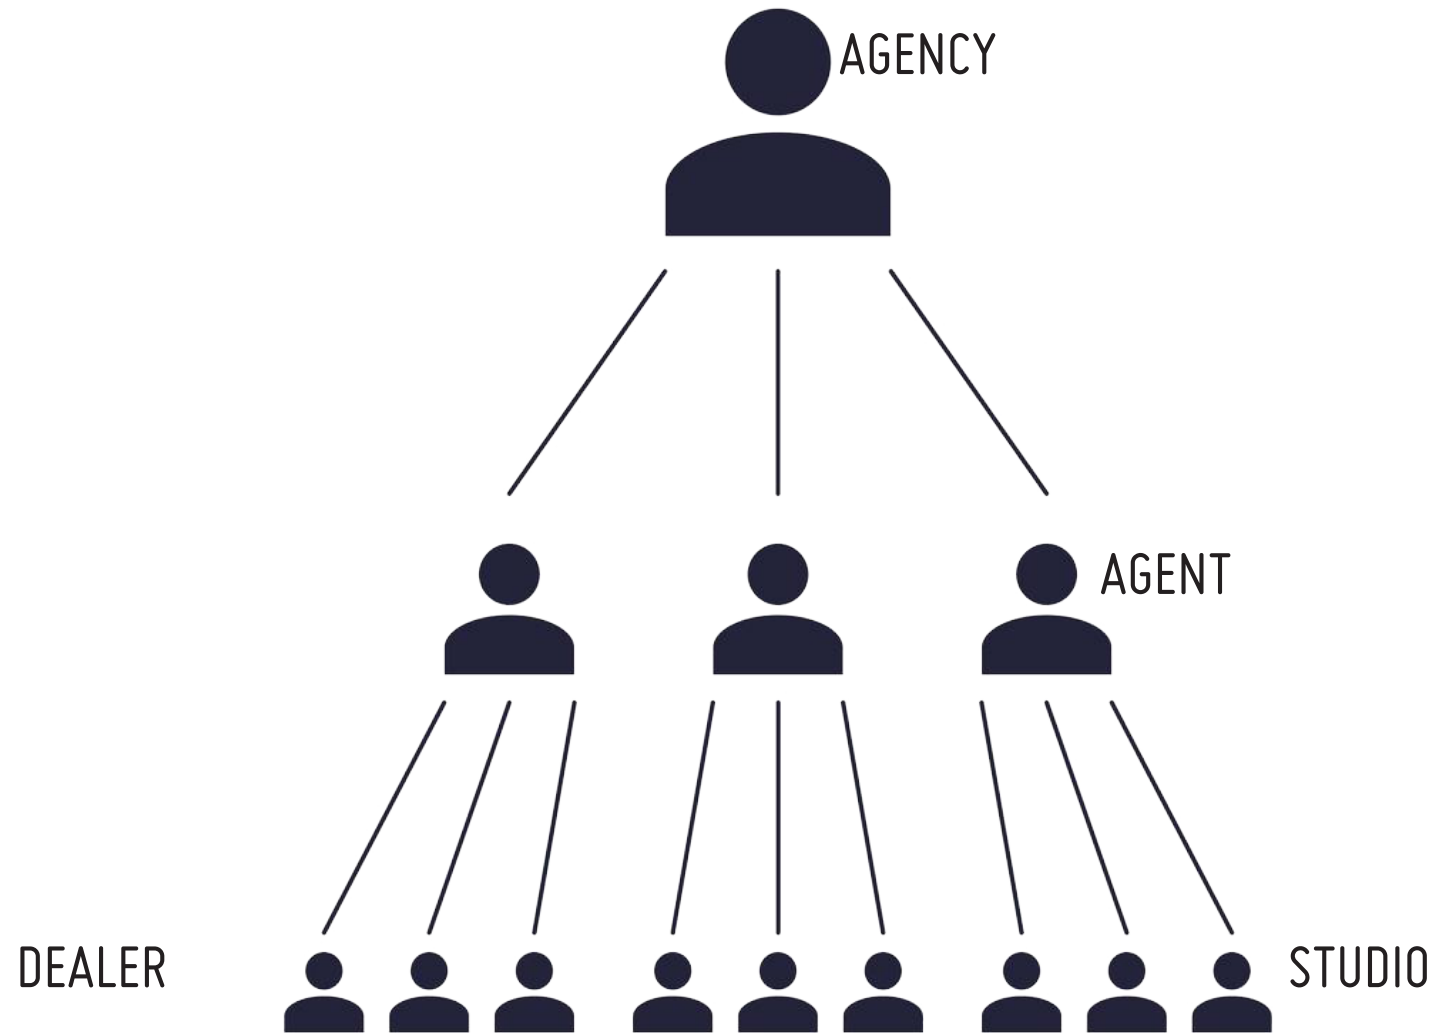

If you haven't entered the app you just installed yet: Click on "LOGIN" (it is located next to the Menu button). In the screen that opens, enter the email and password you used to create the agency. Click on LOGIN TO THE PORTAL.

Once you enter the APP, you will see: TECHNICAL CATALOGS divided by families and series, or PHOTOGRAPHIC CATALOGS divided by families (bottom right). In your DASHBOARD, you can download 2D and 3D files, the PRICE LIST, MERCHANDISING, and POWERPOINT presentations to present LADIVA. If you go to the RESERVED AREA, click USER MANAGEMENT and scroll down until you see the text: INVITE USERS. Assign the ROLE as AGENT if there is more than one person in the agency. GENERATE THE LINK. Copy the generated link and send it to the other agent; create as many links as there are agents in the agency. Let's now grow your AGENCY: go to the RESERVED AREA, still in USER MANAGEMENT, and go to INVITE USERS. This time, however, set the ROLE to DEALERS or STUDIO (DEALERS will be able to view: 2D files, 3D files, PRICE LIST) (STUDIO will be able to view: 2D files, 3D files, NO PRICE LIST). GENERATE THE LINK. Copy the generated link and send it to the DEALER or the STUDIO.

(Please note: if you have several Studios, tick the flag before GENERATE THE LINK. This process is usually used for a dedicated mailing list, because a single link can be used an unlimited number of times.)
